

# 2010 ED-150 CLASSES

The IES ED-150 Intermediate Lighting Education Course offers an opportunity to advance your lighting education. Since it builds on the content established in ED-100, we recommend, (though it is not absolutely necessary), that applicants should complete the ED-100 course prior to taking these classes. The course can also serve as a vital component in the preparation for the NCQLP Exam.

Those enrolled in the class will receive the Student Workbook, and the option to purchase the IES Handbook 9<sup>th</sup>. Edition CD ROM for \$100.00!

LEU credits are available, and can be applied toward the NCQLP Lighting Re-Certification requirements. Self-reported CE / LEU credit may be available for other organizations as well.

## SCHEDULE

DATE:	MODULE:	LOCATION:	ADDRESS:
Sept. 14	<i>Designing for Lighting Quality</i>	The Lighting Design Lab	2915 4 <sup>th</sup> . Ave. S.
